ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: A METHOD OF SUBDIVIDING A PLOT OF LAND FOR HOUSING AND A HOUSING SUBDIVISION SO  
FORMED

(57) Abstract: A method for sub-division of a plot of land comprises the steps of forming, on a polygonal basic tile shape, a layout of a basic precinct unit (1) comprising an array of occupiable spaces (2) of predetermined shape, at least one access way (5) communicating with each occupiable space (2) and tessellating the polygonal basic tile shapes over an area to be sub-divided whereby respective said at least one access way (5) of each basic precinct unit (1) connects with an access way (5) of an adjacent basic precinct unit (1) to form a network of connecting access ways, said basic precinct unit (1), together with an adjacent basic precinct unit (1) forming an inter-tile unit (12) of predetermined shape from two or more adjacent occupiable spaces, said inter-tile unit (12) linking adjacent basic precinct units (1). The tessellation is formed computationally and the computation may include dimensional, boundary and topographical contour data of a plot of land to be subdivided.
